

Mojave National Preserve Conservancy Board Meeting May 16, 2022 Minutes

In Attendance:

Britney, Gary, Luke, Shaun, Chris

-Britney & Shaun provided an update on their efforts with The Wildlands Conservancy and the Victor Elementary School District to organize virtual lessons for students. Britney attended one of Wildlands' virtual classes and worked with Emily Bucchi to create a lesson plan for a visual art class that would complement lessons offered by Wildlands. We briefly discussed writing a grant to continue this effort.

-Britney briefly mentioned wanting to do an art show with the photography she took during her residency in the Mojave with a portion of the proceeds to be donated to MNPC. TBD

-Gary discussed the Star Party for May 28th. Since Covid cases are rising again, we decided it would be an invite only event for MNP, MNPC, NPCA, and Sidewalk Astronomers; each allowed to bring up to 5 people with a max capacity of 80. We decided we would all compile a list of attendees [here](#). Chris offered to supply rapid Covid tests courtesy NPCA. Britney created an invite for personal invites.
